

API/EI 1590 Qualified Cartridges

1 and 3 Micron Rated Cartridges for Aviation Fuels

Velcon Filters, Inc. has qualified the cellulose and microfiberglass media filter cartridges to API/EI Specification 1590, "Specifications and Qualification Procedures for Aviation Fuel Microfilters."

- **Large Surface Area** – Allows high flow rate with low initial pressure drop and maximum contaminant holding capacity.
- **Resin Impregnated Microfiberglass/Cellulose Media** – Maintains strength, resists effects of water and heat.
- **75 psi Collapse Strength** – Heavy gauge carbon steel endcaps and center tube give safety margin against pressure surges.
- **Coated Steel Components** – Resist corrosion from most industrial fluids.
- **Corrugated Media** – Prevents pleat pinch-off, assuring all filtration media is utilized.
- **Buna-N Gaskets** – The best general gasket material available assures positive seal in most fluids.
- **Epoxy Bonding Material** – Endcaps epoxy-bonded to media to prevent internal bypassing.
- **Threaded Base also available**
