

## PRESS RELEASE

September 14, 2005

### Successful API/IP 1583 4<sup>th</sup> Edition Qualification

Colorado Springs, CO, USA –

Velcon Filters, Inc. announces the successful completion of qualification tests to the “API/IP 1583 Specifications and Laboratory Tests for Aviation Fuel Filter Monitors with Absorbent Type Elements”. These tests qualify our new “CDF<sup>®</sup>-2xxN” series water absorbing monitors to the latest edition of the specification (Fourth Edition).

The following optional tests were also completed successfully:

1. ¾% Sodium Chloride full flow slug test
2. ¾% Sodium Chloride 50 ppm test

Our new cartridge series CDF-2xxN also incorporates features to reduce static charge. These new cartridges will eventually replace our current CDF-2xxK series. We anticipate being able to supply these cartridges commencing October 1, 2005.

Velcon Filters, Inc. is the leader in the fuel filtration industry. Velcon's high quality filters and filtration systems detect and remove harmful contaminants and water from fuel. Our products are fully tested and qualified to the latest API/ IP standards. We provide personal attention, instant communication and speedy delivery to keep you in the air.
